

## Wattics Energy Learning Community Workshop

All discussions will take place under the Chatham House Rule: *When a meeting, or part thereof, is held under the **Chatham House Rule**, participants are free to use the information received, but neither the identity nor the affiliation of the speaker(s), nor that of any other participant, may be revealed.*

Report back on the meeting by Wattics will be done in only the most general terms and only with consent from attendees. The purpose of the meeting is to facilitate and encourage discussion and shared learning between workshop participants.

The proposed sequence of events for your participation is as follows:

<b>Thursday, 8<sup>th</sup> March 2018: Workshop Programme</b>	
<b>9:00 – 10:00</b>	<p><b>Registration and badge collection</b></p> <p><b>Guinness Enterprise Centre (Reception)</b></p>
<b>10:00 – 10:15</b>	<p><b>Welcome: Antonio Ruzzelli, CEO, Wattics</b></p> <p><b>Conference Room 3, Guinness Enterprise Centre</b></p>
<b>10:15 – 11:00</b>	<p><b>Speaker: Dr John Ryan, Principal, John Ryan Consulting Limited</b></p> <p>John will provide expert insight into the ISO 50001 Energy Management System certification, namely, the benefits of investing in ISO 50001 for ESCOs and consultants operating today, how to leverage certification for business growth and credibility, as well as how to better align/merge energy analytics services with ISO50001 certification. John will also discuss changes, trends and developments in energy efficiency and sustainability sector and how legislation might intensify investment in smart technologies in the built environment.</p>
<b>11:00 – 11:15</b>	<p><b>Q&amp;A with Dr John Ryan, Principal, John Ryan Consulting Limited</b></p> <p><b>Conference Room 3, Guinness Enterprise Centre</b></p>
<b>11:15 – 11:30</b>	<p><b>Coffee and refreshments in Conference Room 3, Guinness Enterprise Centre</b></p>
<b>11:30 – 12:15</b>	<p><b>Case Study: Commercial rollout of Wattics platform in Prada stores across Asia</b></p> <p><b>Speaker: Alessandro Bisagni, Managing Director, Bisagni Environmental Enterprise (BEE)</b></p> <p>Wattics partner, BEE, founded in 2009, is a sustainability engineering consulting, sourcing and technology company specialising in the creation of green and healthy buildings. It operates out of five regional offices and is working on over 200 projects across 25 countries. In 2016, BEE commenced with the commercial rollout of Wattics energy analytics for international luxury retail brand, Prada, in 11 countries across Asia. In a space of one year, BEE has managed to scale rollout from 1 to 173 stores.</p> <p><b>Conference Room 3, Guinness Enterprise Centre</b></p>
<b>12:15 – 13:00</b>	<p><b>Speaker: Franck Neel, Managing Director, Specialist Services, Engie UK</b></p> <p>Franck will discuss how the former GDF Suez, now Engie has through its re-brand and acquisitions, become more diversified in its capabilities and service offering to include energy intelligence, energy analysis and consultancy. He will also expand on the importance and value of data and analytics with the Engie business and provide insight into best practice in marketing energy services to customers as well as what others learn from Engie's example.</p> <p><b>Conference Room 3, Guinness Enterprise Centre</b></p>
<b>13:00 – 14:00</b>	<p><b>Lunch served in Conference Room 3, Guinness Enterprise Centre</b></p>

# Wattics
